

Sreda LLC BT LE mesh product news

SREDA
Software Solutions

Bluetooth LE multi hop bulk data transfer SW developed by Sreda LLC integrated into electronic shelf labels.
The labels installed in Skolkovo innovation center retail shop by Compo LLC and work in 24x7 mode.

Please refer to the video to learn how our SW works: [link to the video](#)
Please check the presentation for the SW details: [link to the slides](#)
